### Strand 1

For workforce members who go inside homes, who talk to new parents, or who help in a crisis. They will keep 'Eyes on the Baby': observe, listen, nudge, and refer/report.

Strand 1 training is about an hour long.

### Strand 2

For workforce members who provide direct support to vulnerable families. They will raise awareness of and reinforce SUDI prevention: explore, remind, support and refer/report.

Strand 2 training is around one and a half hours long.

### Strand 3

For health professionals who are involved in the routine or emergency care of pregnant and post-partum women and babies. They will offer universal and targeted safer sleep guidance: inform, understand, guide, refer/report, and respond to concerns from staff in strands 1 & 2 as needed.

Strand 3 training is approximately two hours long.
